Professional Experience

Full-Stack Developer
Chrysalis | Jul 2023 – ongoing

https://chrysalis-production.up.railway.app/

Chrysalis is an all-inclusive issue tracking application developed using ASP.NET Core MVC, JavaScript, HTML, Bootstrap, and PostgreSQL. It includes everything a company needs to keep their teams working efficiently together.

Full-Stack Developer
Pen #> Sword | Jul 2023 – ongoing

https://pensword-production.up.railway.app/

Pen #> Sword is a developer blog that covers topics ranging from full-stack development in C# and JavaScript to professional development. It was built using ASP.NET Core MVC, JavaScript, HTML, Bootstrap, and PostgreSQL.

IT Support Analyst
Gallagher Evelius & Jones | Mar 2020 – Mar 2023

Operated on a hybrid basis. I provided IT training to all employees and maintained training and reference materials. I prepared IT reference materials and kept them up-to-date. I coordinated with a team for rapid-response, provided software and hardware support, and documented solutions extensively.
